PROFESSIONAL EXPERIENCE

Assistant Lead Web Application Developer at Alpha Supreme Services (Remote) **May 2026 - Present**

- Designed and maintained scalable web application architecture, system design, and development standards.
- Led and mentored developers by assigning tasks, code reviews, and participating in hiring and onboarding.
- Collaborated with stakeholders to plan, develop, and deliver high-quality web application features and solutions.

Frontend Developer at Tito Solutions (Remote) **Jan 2025 - April 2026**

- Maintained and enhanced production SaaS applications using Next.js, TypeScript, Supabase, and React Native.
- Improved application performance and user experience by redesigning interfaces with Tailwind CSS and ShadCN.
- Collaborated in Agile teams, contributing to sprint planning, deployments, and mobile app development.

AI Software Engineer at AFS (Accelerated Fleet Services) (Remote) **Sept 2025 - Feb 2026**

- Led frontend development using Next.js, React, TypeScript, Tailwind CSS, and ShadCN, building a responsive and scalable fleet management platform
- Collaborated with backend developers and clients, implementing features with Node.js, Express, and PostgreSQL, including service orders, inventory, and technician management
- Developed a Voice AI Copilot using React Native and improved performance using Zustand and React Query

Software Developer at Lee System Technology Venture **May 2022 – Dec 2024**

- Developed and maintained enterprise systems including HRIS, Point-of-Sale, BSS
- Delivered production bug fixes and feature enhancements using Sequelize ORM, Zustand state management, SQLyog, and Material-UI
- Responded to real-time client feedback to improve system performance and user experience

Internship SAP ABAP Developer - Accenture Philippines

- Completed an internship as an SAP ABAP Programmer, assisting in developing, testing, and maintaining SAP programs

PROJECTS

Sellora | Github | Live URL | Next.js, Convex, Clerk Auth, TailwindCSS

AI-powered eCommerce SaaS with smart store management, AI content generation, chatbots, and analytics.

SpendWise – Github | Live URL | React.js, Redux, Convex, Clerk Auth
AI-powered finance tracker for expense management, budgeting, and spending insights.

TutorAI | Github | Live URL | Next.js, Supabase, Clerk Auth, Vapi.ai
Voice-enabled AI tutoring platform with real-time speech interaction and conversational learning.

EDUCATION

Bachelor of Science in Information Technology, *STI College Caloocan*

- ***Graduated Magna Cum Laude***
- **CGWA: 1.30** (*Consistent President's Lister)*

CERTIFICATIONS

- Civil Service Eligibility for Honor Graduate
- AWS Academy Graduate - AWS Academy Cloud Foundations
- Prompt Engineering for Everyone - IBMSkillsNetwork
